

## Case Study: Spire Healthcare – MRI & Scanner Facilities

**Client:** Spire Healthcare

**Location:** Multiple Sites Across the UK

**Sector:** Healthcare / Medical Imaging

**Duration:** Completed in 2024

**Contract Type:** Specialist Fit-Out & Compliance

**Completion:** On Time & Within Budget

### Project Overview

Quest Interiors was appointed by Spire Healthcare to deliver specialist **MRI and scanner facilities** across three hospital sites in the UK. The project required high levels of coordination, compliance, and communication to ensure successful delivery within live clinical environments.

### Scope of Works

- Installation of **specialist shielding** to meet MRI and scanner compliance standards.
- **Validation of existing services** to confirm suitability for supporting new imaging equipment.
- Fit-out of new **lab benching and high-spec finishes** tailored to clinical use.
- Careful planning and execution of **equipment delivery routes**, including secure installation within operational hospital buildings.
- Collaboration with **client consultants** and hospital teams to ensure clear communication and minimal disruption.

### Challenges & Solutions

Working within live hospital environments required extensive stakeholder engagement and logistical planning. Quest Interiors held regular coordination meetings to manage access routes, schedule deliveries, and maintain safety and cleanliness throughout the works. The technical nature of the installations demanded precision and compliance with healthcare standards.

### Outcome

All three sites were completed on time and within budget. The successful delivery of these specialist facilities has strengthened Quest Interiors' reputation in the healthcare sector and demonstrated the team's ability to manage complex, multi-site projects with professionalism and care.
